

SEMCO MARITIME A/S

- Dedicated to the global energy sector!

Semco Maritime is an international engineering and contracting company dedicated to projects in the energy sector. For 40 years, since the early beginning of the Danish offshore industry, Semco Maritime has been facilitating engineering design, fabrication, installation, service and maintenance of offshore assets, providing comprehensive project management across all phases of energy projects.

From turnkey engineering solutions to outsourcing of personnel and delivery of components, systems and solutions – Semco Maritime makes sure that customers and partners in the energy sector experience safe and cost-efficient solutions. Semco Maritime has approx. 1,300 employees and branches in Denmark, Norway, the UK, Singapore and the US.

From oil & gas to renewables

Over the past 40 years, the company has built up expertise as a multi-disciplined engineering, procurement and construction (EPC) contractor to the oil and gas industry and to this day Semco Maritime still makes sure that oil and gas assets in the North Sea experience maximum uptime and smooth operation.

In 2001, Semco Maritime ventured into the offshore wind industry and is now also a well-known »world leader in offshore substations«. Since then the company has provided competitive turnkey offshore wind electrical infrastructure solutions for more than 20 offshore

substation projects. In the years to come, this experience will also be applied to the developing offshore wind markets in both Taiwan and the US.

Safety is part of our DNA

Semco Maritime sets ambitious objectives and targets in order to progressively achieve an HSSEQ performance that adds value to the company and its stakeholders. The goal is clear:

- Zero harm to employees
- Zero harm to the environment
- Zero harm to stakeholders
- Zero harm to our assets

CORE COMPETENCES:

- Renewable projects
 - Engineering studies and concepts
 - Offshore substations (electrical EPCI)
 - Service, operation and maintenance
 - Firefighting and telecom
 - Manpower
- Oil & gas projects
 - Modification and maintenance projects
 - Firefighting and telecom
 - Rig upgrades, modifications and yard stays
 - Manpower
